A highly intelligent girl, Julia skipped Grade 4, graduated high school and by age 17, completed a 2-year Finance & Administration College program in 12 months. She immediately began supporting herself, working in downtown Montreal, Quebec and Toronto, Ontario, Canada.

Later she married her husband, David McCammon, they have remained together for over forty years. Her creative talents flourished while earning a 3-year Applied Arts diploma in Crafts and Design – Ceramics Studio.

Julia's next level of awareness and abilities arrived while raising her young children, she noticed regular occurrences of accelerated healing. When either child was injured, she would instinctively hold her hand over the painful area and it would clear. In seconds, her daughter or son would go from screaming in pain, to silent and fine as wounds healed. A mother's instinct to stop her child's pain and suffering brought forward an automatic response. It launched Julia's natural ability to harness the universal

energy of creation and transmit it to any living organisms or non-living materials, anywhere in the world, altering and enhancing their function and quality.

Her thirst for knowledge and desire for greater healing results led to training in over fifteen healing methods / modalities with some top transformational leaders and energy healers. Julia's personal experience with abuse, betrayal, emotional trauma and family drama, provides strength, commitment and support for development and growth. She had enormous success clearing emotional trauma for others yet struggled to keep herself clear as these exchanges brought toxicity.

In April 2011, Julia heard Guruji Mahendra Trivedi speak on a live webcast and received her first Remote Energy transmission. It was a powerful experience that brought a deep restorative sleep and new state of calmness. She immediately wanted more of this divine connection and committed to consistently receive Trivedi Effect® energy transmissions / blessings / Biofield energy treatments. Julia joined The Trivedi Healers Mastery program, which allowed her to develop the capacity to protect herself from damaging circumstances. Over time she grew stronger, more youthful and ready to fulfill her clients' needs.
